

TOMÁS IGNACIO NADAL

CABA, Argentina | tomasnadal04@gmail.com | linkedin.com/in/tomasnadal | tomasnadal.netlify.app

PROFESSIONAL SUMMARY

3rd-year Data Science student and Full-Stack Developer with over 4 years of professional experience. Co-founder of Nexium Solutions and founder of Zevetix. Specialized in building interactive digital products, designing scalable frontend architectures, and integrating AI-driven data and automation solutions to optimize business and operational processes.

WORK EXPERIENCE

Co-Founder & Chief Technology Officer — Nexium Solutions 2022 – 2026

Buenos Aires, Argentina (Remote)

- Led the development and delivery of **over 100 web projects**, including landing pages, e-commerce sites, corporate web applications, and custom CMS platforms (React, Next.js, Node.js).
- Coordinated multidisciplinary development, design, and content teams, implementing agile methodologies that accelerated project delivery times by 30%.
- Supervised the product lifecycle, managing and prioritizing the backlog based on client requirements and key business growth metrics.

Founder & Technology Consultant — Zevetix 2025 – Present

Buenos Aires, Argentina (Remote)

- Founded an IT consulting agency specializing in digital product development, statistical data analysis, and workflow automation powered by artificial intelligence.
- Designed tailored technological and digital transformation roadmaps for corporate clients, leading product discovery and the integration of LLM APIs (OpenAI, Anthropic) to streamline operations.

Front-End Developer (Freelance) 2020 – 2022

Buenos Aires, Argentina (Remote)

- Developed modular, responsive, and accessible user interfaces with a strong focus on performance optimization, SEO, and user experience (UX/UI).
- Built optimized landing pages and websites using HTML5, CSS3, JavaScript, and React, consistently achieving Google Lighthouse performance scores of 90+.

EDUCATION

B.S. in Data Science — Universidad de San Martín (UNSAM) 2023 – Present

Buenos Aires, Argentina (Currently in 3rd year)

- Solid foundation focused on applied statistics, linear algebra, mathematical modeling, scientific programming, and quantitative data analysis.

SKILLS

Frontend Technologies: React, Next.js, JavaScript (ES6+), TypeScript, Tailwind CSS, HTML5, CSS3.
